

A personal message for Mr A B Sample

It has been a great honour for me to represent the Epsom & Ewell constituency, inc. Nork, Tattenhams & Ashtead for the past 14 years. I have always done my best to ensure that we protect the character of the area and that we do what we can to retain and strengthen our local services. I live locally, shop locally, use the local NHS and travel to work from Ashtead station daily. So it matters to me that this remains a great area to live and work in and as long as I am MP, I will work to ensure that it stays that way.

My priorities for Epsom & Ewell, Ashted, Nork & Tattenhams

- 1** To continue to work to ensure the future of services at Epsom Hospital.
- 2** To work with local residents to preserve the character of Epsom, Ewell, Ashted, Nork and Tattenhams.
- 3** To be an effective voice for local residents on the national stage, working to secure a referendum on our EU membership, and to get a better deal for hard-working taxpayers.

Successfully stopped services being taken away from Epsom Hospital

Supporting Mental Health Week

Chris at Total Look Hair and Beauty Salon, helping raise funds for charity.

An active local campaigner

Chris has fought a number of campaigns. Key among these has been the ongoing battle to keep services at Epsom Hospital, fighting 5 separate campaigns in 14 years. Recently he organised an unofficial ballot of local GPs, which forced local health authorities to abandon plans to relocate emergency services from Epsom to St George's and Kingston.

He has campaigned successfully to get Oyster Cards accepted at Epsom station this Autumn and is continuing to work to get Epsom into Zone 6.

He has also worked with local residents to resist controversial local development plans and is committed to finding ways of limiting more backland development in Nork.

He worked with residents in Ashted and Network Rail to secure the agreement to modernise the level crossing.

About Chris GRAYLING

Chris with young offenders in a Surrey scheme designed to teach them new skills.

Chris has been MP for Epsom & Ewell since 2001 and appointed Lord Chancellor and Secretary of State for Justice in September 2012. He has been a prominent figure in the Conservative Party over the past decade, holding a series of front bench positions.

In Government, he served as Employment Minister, introducing the successful Work Programme, supporting the long-term unemployed back into work. It has contributed significantly to the big drop in the number of long-term jobless in the past few years.

As Secretary of State for Justice, he has pushed through the biggest reforms to the rehabilitation of offenders for decades, extending support and supervision to 50,000 short sentence prisoners who up until now had been left to walk the streets on their release.

Before becoming MP for Epsom & Ewell, he worked in the media, as a journalist and a business manager. He and his wife Sue live in Ashted with their family.

- 2** To work with local residents to preserve the character of Epsom, Ewell, Ashted, Nork and Tattenhams.
- 3** To be an effective voice for local residents on the national stage, working to secure a referendum on our EU membership, and to get a better deal for hard-working taxpayers.

Successfully stopped services being taken away from Epsom Hospital

Supporting Mental Health Week

Chris at Total Look Hair and Beauty Salon, helping raise funds for charity.

An active local campaigner

Chris has fought a number of campaigns. Key among these has been the ongoing battle to keep services at Epsom Hospital, fighting 5 separate campaigns in 14 years. Recently he organised an unofficial ballot of local GPs, which forced local health authorities to abandon plans to relocate emergency services from Epsom to St George's and Kingston.

He has campaigned successfully to get Oyster Cards accepted at Epsom station this Autumn and is continuing to work to get Epsom into Zone 6.

He has also worked with local residents to resist controversial local development plans and is committed to finding ways of limiting more backland development in Nork.

He worked with residents in Ashted and Network Rail to secure the agreement to modernise the level crossing.

About Chris GRAYLING

Chris with young offenders in a Surrey scheme designed to teach them new skills.

Chris has been MP for Epsom & Ewell since 2001 and appointed Lord Chancellor and Secretary of State for Justice in September 2012. He has been a prominent figure in the Conservative Party over the past decade, holding a series of front bench positions.

In Government, he served as Employment Minister, introducing the successful Work Programme, supporting the long-term unemployed back into work. It has contributed significantly to the big drop in the number of long-term jobless in the past few years.

As Secretary of State for Justice, he has pushed through the biggest reforms to the rehabilitation of offenders for decades, extending support and supervision to 50,000 short sentence prisoners who up until now had been left to walk the streets on their release.

Before becoming MP for Epsom & Ewell, he worked in the media, as a journalist and a business manager. He and his wife Sue live in Ashted with their family.

A personal message for Mr A B Sample

It has been a great honour for me to represent the Epsom & Ewell constituency, inc. Nork, Tattenhams & Ashtead for the past 14 years. I have always done my best to ensure that we protect the character of the area and that we do what we can to retain and strengthen our local services. I live locally, shop locally, use the local NHS and travel to work from Ashtead station daily. So it matters to me that this remains a great area to live and work in and as long as I am MP, I will work to ensure that it stays that way.

My priorities for Epsom & Ewell, Ashted, Nork & Tattenhams

- 1** To continue to work to ensure the future of services at Epsom Hospital.
- 2** To work with local residents to preserve the character of Epsom, Ewell, Ashted, Nork and Tattenhams.
- 3** To be an effective voice for local residents on the national stage, working to secure a referendum on our EU membership, and to get a better deal for hard-working taxpayers.

Successfully stopped services being taken away from Epsom Hospital

Supporting Mental Health Week

Chris at Total Look Hair and Beauty Salon, helping raise funds for charity.

An active local campaigner

Chris has fought a number of campaigns. Key among these has been the ongoing battle to keep services at Epsom Hospital, fighting 5 separate campaigns in 14 years. Recently he organised an unofficial ballot of local GPs, which forced local health authorities to abandon plans to relocate emergency services from Epsom to St George's and Kingston.

He has campaigned successfully to get Oyster Cards accepted at Epsom station this Autumn and is continuing to work to get Epsom into Zone 6.

He has also worked with local residents to resist controversial local development plans and is committed to finding ways of limiting more backland development in Nork.

He worked with residents in Ashted and Network Rail to secure the agreement to modernise the level crossing.

About Chris GRAYLING

Chris with young offenders in a Surrey scheme designed to teach them new skills.

Chris has been MP for Epsom & Ewell since 2001 and appointed Lord Chancellor and Secretary of State for Justice in September 2012. He has been a prominent figure in the Conservative Party over the past decade, holding a series of front bench positions.

In Government, he served as Employment Minister, introducing the successful Work Programme, supporting the long-term unemployed back into work. It has contributed significantly to the big drop in the number of long-term jobless in the past few years.

As Secretary of State for Justice, he has pushed through the biggest reforms to the rehabilitation of offenders for decades, extending support and supervision to 50,000 short sentence prisoners who up until now had been left to walk the streets on their release.

Before becoming MP for Epsom & Ewell, he worked in the media, as a journalist and a business manager. He and his wife Sue live in Ashted with their family.

A personal message for Mr A B Sample

It has been a great honour for me to represent the Epsom & Ewell constituency, inc. Nork, Tattenhams & Ashtead for the past 14 years. I have always done my best to ensure that we protect the character of the area and that we do what we can to retain and strengthen our local services. I live locally, shop locally, use the local NHS and travel to work from Ashtead station daily. So it matters to me that this remains a great area to live and work in and as long as I am MP, I will work to ensure that it stays that way.

An active local campaigner

Chris has fought a number of campaigns. Key among these has been the ongoing battle to keep services at Epsom Hospital, fighting 5 separate campaigns in 14 years. Recently he organised an unofficial ballot of local GPs, which forced local health authorities to abandon plans to relocate emergency services from Epsom to St George's and Kingston.

He has campaigned successfully to get Oyster Cards accepted at Epsom station this Autumn and is continuing to work to get Epsom into Zone 6.

He has also worked with local residents to resist controversial local development plans and is committed to finding ways of limiting more backland development in Nork.

He worked with residents in Ashted and Network Rail to secure the agreement to modernise the level crossing.

About Chris GRAYLING

Chris with young offenders in a Surrey scheme designed to teach them new skills.

Chris has been MP for Epsom & Ewell since 2001 and appointed Lord Chancellor and Secretary of State for Justice in September 2012. He has been a prominent figure in the Conservative Party over the past decade, holding a series of front bench positions.

In Government, he served as Employment Minister, introducing the successful Work Programme, supporting the long-term unemployed back into work. It has contributed significantly to the big drop in the number of long-term jobless in the past few years.

As Secretary of State for Justice, he has pushed through the biggest reforms to the rehabilitation of offenders for decades, extending support and supervision to 50,000 short sentence prisoners who up until now had been left to walk the streets on their release.

Before becoming MP for Epsom & Ewell, he worked in the media, as a journalist and a business manager. He and his wife Sue live in Ashted with their family.

A personal message for Mr A B Sample

It has been a great honour for me to represent the Epsom & Ewell constituency, inc. Nork, Tattenhams & Ashtead for the past 14 years. I have always done my best to ensure that we protect the character of the area and that we do what we can to retain and strengthen our local services. I live locally, shop locally, use the local NHS and travel to work from Ashtead station daily. So it matters to me that this remains a great area to live and work in and as long as I am MP, I will work to ensure that it stays that way.

 **Conservatives**

My priorities for Epsom & Ewell, Ashted, Nork & Tattenhams

- 1** To continue to work to ensure the future of services at Epsom Hospital.
- 2** To work with local residents to preserve the character of Epsom, Ewell, Ashted, Nork and Tattenhams.
- 3** To be an effective voice for local residents on the national stage, working to secure a referendum on our EU membership, and to get a better deal for hard-working taxpayers.
